Don't Let Your Budgets Be Pillaged! As an owner, a contractor, an architect, a design consultant, or an owners representative do you know what's in your wallet? Are you evaluating your subcontractors or the consultants you select? Are you finding that bonding agencies are not able to bond or that there are two or three involved? How are you managing the risks and defaults in today's economy? What about protests? How do you manage to respond the the volumes of protests after an award has been announced? What to do when there are too many vultures on a carcass?!?!?
